### **Criteria-III**

### **DVV CLARIFICATION**

#### **Metric No: 3.3.2**

**3.3.2 Number of extension and outreach programs conducted by the institution through NSS/ NCC/Government and non-government bodies other clubs during the last five years.**

#### **DVV Clarification (A):**

HEI has provided all the documents in the regional languages and thus cannot be appreciated in their current version. National, international celebration days, educational trips, industrial visits, events organised by the HEI's own students with no interactions with external community and likewise events are not aligned with the intent of the current metric. HEI need to recheck the input figure and reconsider once again. HEI's may revise their claims and support only those activities that provide tangible benefits to the community beyond the campus. Extension and Outreach Program in an undergraduate college aim to foster civic responsibilities and community programs among students by providing services that extend beyond the campus. These programs allow students to apply their knowledge and skills to outreach benefit society while gaining practical experience.

**Clarification:** The HEI has translated headings of all the regional languages (i.e., Kannada) documents into English and has provided captions for the same.

HEI has provided report of all the national, international celebration days, educational trips, industrial visits and events organised with its own Students which include the service and extensive interactions with the community. Proper captions and highlighting the same to have been provided for better clarification.

Since all reports provide tangible benefits to the community beyond the campus HEI has revised the claims with proper report, which include objectives, proper captions, translations, invitations, banners, supporting media reports with proper dates.

**Note:** HEI has updated their claims from the Academic Year 2019-2024 as per the clarification (A) sought in DVV relating to extension and outreach activities and has provided links for programs academic year wise.
